

FOR IMMEDIATE RELEASE

Schneider Electric Selects AssetPoint's Enterprise Asset Management Solution TabWare

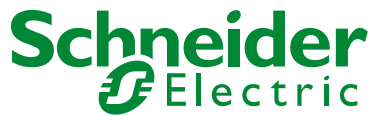

Greenville, SC – October 26, 2011 – AssetPoint, a leading Enterprise Asset Management (EAM) and Computerized Maintenance Management System (CMMS) solution provider, announced an exciting new partnership with Schneider Electric, a global specialist in energy management. The partnership gives AssetPoint access to Schneider Electric's vast global energy management solutions, markets, and customers. Schneider Electric gains access to TabWare, AssetPoint's robust EAM/CMMS solution.

“In order to truly implement energy and production optimization initiatives customers need visibility into the performance of their assets,” said Greg Bodenhamer, Vice President, Industry End User Marketing, Solutions & Services, Industry Business, Schneider Electric. “With the addition of AssetPoint's solution we can now offer our customers a more comprehensive, end-to-end manufacturing productivity, energy management, and sustainability solution that provides insight into the performance, health and operation of all their assets.”

Schneider Electric delivers a complete process management solution that allows companies to optimize their energy usage and drive maximum efficiency within their operations while also improving productivity. For more information on Schneider Electric's automation and control solutions visit: www.schneider-electric.com/us.

“AssetPoint is excited to partner with the leader in global energy management, Schneider Electric.,” said Mike Levine, President and CEO, AssetPoint. “We believe their energy management solutions combined with our TabWare EAM/CMMS solution offers customers a total solution to maximize the performance of their assets. TabWare has been a trusted industry solution for over 30 years, and partnering with Schneider Electric enables customers to obtain energy efficiency and automation, leading to faster ROI. We are committed to our customers reaching Best-in-Class results, and we will continue to be leaders in the industry through product innovation, quality and customer service excellence.”

AssetPoint (www.AssetPoint.com) has been a leader in CMMS/EAM solutions for over 30 years, and its TabWare CMMS/EAM solution is designed by maintenance professionals for

maintenance professionals. TabWare is easy to learn, easy to use, and easy to own, so companies are able to get up and running in days. AssetPoint offers flexible deployment options, including a cloud computing solution (SaaS) or on-site for companies who want TabWare on their own servers. TabWare is the leading Best-in-Class EAM solution for companies who want full functionality without the expense, resources and time other solutions demand. TabWare is proven to maximize asset performance, resulting in reduced operating costs and higher profit margins.

AssetPoint will integrate its TabWare CMMS/EAM solution with Schneider's energy management solutions for a seamless total asset management system. The combined software solution will maximize asset performance by providing customers real-time management, scheduling and accounting for the maintenance of machinery and equipment, while achieving energy efficiency simultaneously.

About Schneider Electric

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in energy and infrastructure, industrial processes, building automation, and data centers/networks, as well as a broad presence in residential applications. Focused on making energy safe, reliable, and efficient, the company's 110,000 plus employees achieved sales of more than \$26 billion in 2010, through an active commitment to help individuals and organizations "Make the most of their energy."
