Dymatize Nutrition Selects TabWare CMMS / EAM to Maintain Manufacturing Assets

About Dymatize Nutrition:

Established in 1994, Dymatize Nutrition supplies high quality and effective nutritional supplements to millions of stores and fitness enthusiasts around the world. Unlike most nutritional companies, Dymatize operates their own manufacturing plant, allowing them to be in total control of purchasing, processing, blending and packaging of their products. They are committed to extremely high quality, superior taste and delicious flavors, offering new cutting edge products alongside their already proven product line of 250+ Stock Keeping Units (SKUs).

"We quickly realized that TabWare CMMS / EAM met all of our functional requirements, including the ability to go from Cloud to on premise if and when needed in the future."

-Toni Rubio, Maintenance Supervisor
Dymatize Nutrition

Challenges & Requirements:

- Easily plan and organize all Preventive Maintenance (PM) work
- Ease of use for maintenance personnel
- Maintain Environmental, Health & Safety (EH&S) programs and initiatives
- Support strict Food & Beverage industry requirements and audit standards
- Quickly track spare parts inventory and equipment history

TabWare Benefits:

- Monitors equipment and helps eliminates downtime and equipment failures
- Improves operational efficiency
- Streamlines Work Orders (WO) assignment and execution
- Effectively manages industry compliance records
- Helps drive continuous improvement in manufacturing plant
- TabWare Analytics enables visualizations to manage Key Performance Indicators (KPIs), trends, multi-dimensional and what-if analysis

"We are eager to start managing and tracking equipment history and ensuring that our assets are operating at optimum efficiency. We are extremely happy with our decision, and we look forward to improving our operations with TabWare."

- Toni Rubio, Maintenance Supervisor
